Download Publisher App

This useful software will help you to create, customize and share a wide range of professional marketing works and publications such as cards, menus, magazines or posters the way you feel it right.. When you are done adding effects and you finish your publication, you can easily print it thanks to Publisher's ability to save every page in a common image format, like *JPG*.. This version offers some new features to enhance your pictures First of all, you can search the image of your choice whether they are on your computer, in the art gallery or on the web.. Unlike the competition however, pub files are proprietary and don't play nicely with other third-party publishing software suites.. Then you can add those pictures and swap between them easily using the scratch area.. Microsoft Publisher is an entry-level desktop publishing application from Microsoft, differing from Microsoft Word in that the emphasis is placed on page layout and design rather than text composition and proofing.. The ability to quickly gather images from Office com and other image sites will make it easier to find just the right image.. Same thing happens with templates The program brings you some, and then you are free to get more.. Publisher is bundled with the latest Office 2013 product and has adopted a more touch-friendly UI for Windows 8.

You just need to be familiar with Word or with similar tools, and then you will be able to use it correctly.. You can also enhance your texts with new effects added to this version How to use Microsoft Publisher 2013 is pretty simple to use.. Publisher 2016 is compatible with Windows 10, Windows 8 1, and Windows 7 Microsoft Publisher 2013 is a powerful tool to construct various printings and publications.. Moreover, you are free to use them as background for your publication Microsoft Publisher This is the king of publishing apps for the Windows platform.. You can also share a page via email or send the whole publication as HTML and all pages will merge in the same message.. Besides, this software offers several tools to improve your images You will find some options to crop, resize and change the shapes, adjust the contrast or the color, etc.. This version has loads of clipart and images, and you can also download additional images from online resources.
